LAURA MARSH is a long time contributor to National Geographic Children Books.Â She has written a large number of books in National Geographic Readers seriesÂ and also in Mama Mirabelle and Toot and Puddle series.

I love these books. I'm constantly looking for interesting nonfiction texts for my classroom. These

are perfect for my third graders and they can not get enough of them. Kids are constantly coming up to me and telling me new facts that they have learned from the books in this series. Great for science, reading, social studies, history, vocabulary, etc. Highly recommended!

My 7 year old granddaughter is crazy over tigers and just completed 1st grade and loves to read this to herself.

Who doesn't love reading about tigers...my students sure loved it!

Cute little book and informative for children and adults alike!

Love all these National Geographic readers...Level 2 is great for First and second grade readers..

My 6 year old needs to read non-fiction books as part of her school curriculum. The National Geographic Series of leveled readers has been great. We started at 1 and now can do both levels 2 & 3. They sometimes introduce vocabulary terms specific to the animal or topic which I need to step in and help define, but other than that they can be read all on their own.

Awesome little book.

We own quite a few of the national geographic readers and we love them all. They are appropriately laid out for young readers, my daughter loves the riddles/jokes and she loves learning interesting facts about the animals and sharing them with the family. I am very pleased with this purchase and will continue to buy others in the series.
