Grade Level: 5 and up

Customer Reviews

This coloring book has a little bit of a lot of different pictures to color. The reason for 4 stars is because the pictures are prints on every single page and it's very difficult to color the ones that are on the backside of each page and in some cases you can't even get to the rest of the picture, the book will not open all the way. I do not like having a picture on the left side of every page and on the right side, but particularly on the left. This book has a wonderful assortment, not exactly what I'd call Tattoo but a fun book none the less. I would highly recommend this seller and would only recommend the book to people who don't mind that every single page has an illustration on it.

Lots of good pics and I love the texture of the paper!! The only draw back is that they printed on both sides and they didn't leave any indentations for pulling them out and being able to frame your work!!

This by far is my favorite coloring book. I love that the pictures have so much detail, this helps me on my shading and coloring for when i draw my own pictures.

Amazing book my son absolutely loves it.. I enjoyed it as well..

Love it! Did not disappoint

It was awesome

nice

Item was great , amazing pictures
