## Synopsis

“We were given: Two hands to hold. Two legs to walk. Two eyes to see. Two ears to listen. But why only one heart? Because the other was given to someone else. For us to find.” ~ Unknown Lily is left heart-broken and shattered after the death of her mother. Now she is moving in with a father she barely knows, with nightmares haunting her every breath. Finding out there are wolves in the world | that can turn human at will is a terrifying thought. With the help of the local Alpha she learns to let people in again, and to heal her shattered soul. She slowly learns that broken doesn’t always mean weak, and sometimes you need the love of new found friends and self-formed family to heal the unseen wounds. Will she put her broken pieces back together with an Alpha’s help? Or will she fall deeper into her own mind “burrowing in a hole she can’t escape from? How can she become a part of a pack full of dominant wolves “when she has more humanity than them all?” “I think you are a little broke, but I think you will overcome it.” • I just sat there, not quite understanding what he was saying. “Lily, we will take this slow, get to know each other. But you are mine, and I am yours, always.” • He said, softly taking my face in his hands and looking at me with heated eyes, “Do you understand?” ~Series Reading Order: The Beginning (1) From the Other Side (1.5) Burning Heart (2)

## Customer Reviews

Wonderful YA paranormal romance. See Lilly's find out who and what she truly is. The friendships she forms and the unbreakable bond she finds where she least expected. I can't wait to find out more about Lilly and her friends!!!

I love how it really draws you in! I would love a part 2!!! Ready for more books from this author!!

Good story even though it was short. I really disliked Lily being really weak. Really wished she grow a backbone. I wanted her to defend herself at least once from Sue.

Kindle Unlimited - Thank you! Pretty much the only downside is the looming need for proofreading. The story, writing style, voices, etcetera are good. The myriad of typos and word errors are bad enough to really detract from the reading experience. Let someone work on an editable PDF? And then pass it on to at least one more person. Not the worst I've seen, but published work really should meet a professional standard. I'd have to down rate all the books so I'm just doing the one review. A sweet story. The traditional wolf shifter mating memes are altered just enough to make the story truly age appropriate for the entire young adult age range, maybe even older adolescents. Nice touch. Something about this series (perhaps the focussed love of the alpha male) reminded me of one of my all time Kindle Unlimited favorites: THE CHRONICLES OF ICHTHEMA by V. St. Clair.

This is a good book. The story is almost unique, but predictable. I wasn't very impressed with the writing as it is very hard to read. I thought the writer could have used a better editor and a lot of proofreading. Unfortunately, for me, this was very distracting. I did enjoy the storylines being written from both main characters prospective s, though rather redundant.

Not a bad story as werewolf shifter stories go. It's a nice premise...but the typos are too numerous. Needs a corrected story reissued.

Love this story and all the characters except a few! Lol and it sounds by the second and third it's gonna get even better, no hot love tho :-( but that's alright, I liked it anyway

The editing is really bad. Bad grammar, use of wrong words throughout the book. Other than that. It's a great story, I really enjoyed it
