V For Vendetta Deluxe Collector Set, Book And Mask Set

Synopsis

In a world without political freedom, personal freedom and precious little faith in anything comes a mysterious man in a white porcelain mask who fights political oppressors through terrorism and seemingly absurd acts. It's a gripping tale of the blurred lines between ideological good and evil. The inspiration for the hit 2005 movie starring Natalie Portman and Hugo Weaving, this amazing graphic novel is packaged with a collectable reproduction of the iconic "V" mask.

Customer Reviews

"Dark, gripping storytelling." â€“ Entertainment Weekly "Perhaps Moore's most powerful work." â€“ Portland Mercury "An influential fantasy author for almost a quarter century." â€“ The New York Times on Alan Moore "Densely-packed, thematically vibrant and philosophically challenging work that defies easy categorization." â€“ Scripps Howard News Service

Alan Moore is perhaps the most acclaimed writer in the graphic story medium, having garnered countless awards for works such as WATCHMEN, V FOR VENDETTA, SWAMP THING and MIRACLEMAN. He is also the mastermind behind the America's Best Comics line, through which he has created (along with many talented illustrators) THE LEAGUE OF EXTRAORDINARY GENTLEMEN, PROMETHEA, TOM STRONG, TOMORROW STORIES and TOP TEN. As one of the medium's most important innovators since the early 1980s, Moore has influenced an entire generation of comics creators, and his work continues to inspire an ever-growing audience.

I'm really disappointed. No need to spend any words on the book. It's a classic. But I'm still trying to figure where's the deluxe finish or the collector's level in this pityful set that I've just received. To make it simple, it is not the one in the product pictures. The mask seems to be one of those that kids get for free in birthday parties. It is made of a cheap plastic, full of stickers in the inside. Besides that, you can easily notice how it was poorly handcut, probably with common scissors and by someone that don't have steady hands. It also comes with a hanging tab that, guess what, it wasn't shown in product pictures. The box is also not the one in the pictures. A cheap cellophane completely loose and unglued at the time it arrived. The box was full of smashed edges. Well, not just the edges, it was all smashed. Even the book could have a better quality paper. There's anything deluxe in this set, and anything for a collector. It was cheap, indeed, but customers deserve to know what they are buying, no matter what price they are paying. If I knew, I would have bought any other hardcover version of the product. Right now, I feel deceived and disappointed. Don't buy this, go for any other version. P.S.: Sorry for any grammar mistakes, my english is a little rusted.

You do get a book and mask set, however it's not the same one as pictured. The book its self is wonderful, the packaging was fine, but the mask was an absolute piece of crap. Its one of those cheap party masks you can pick up at the \$1 store. Considering the set costs less than the book itself, I'm not really worried about the crappy mask that legit got tossed in the trash with the box it came in. 5 stars to Alan Moore for an awesome book and 1 star to for crappy advertisement of this product.

I pre-ordered this set months ago, as I was excited that such a collection would be available before I had to set up a V for Vendetta Display in November. The good, the book is great, but you can buy a comparable edition for a few dollars less on by itself. I repeat the book is great 5 stars, too good for this set. The mask is a flimsy thin plastic number complete with hanging tab. Garbage. I will return and buy the deluxe rubies mask, it has to be better than this one. The worst part, the packaging. It is so flimsy my first set was dented, and my replacement set was worse, the cellophane tearing out of the front. The box looks completely different than what is shown here. I will upload images to show what I mean. What a waste of potential. If you don't care about the quality of the mask or the condition of the box you may like this.

This was a present for my daughter's dual credit English teacher in high school as this is one of the books they read for class. Hearing her comparison as we watched the movie to the graphic novel was fascinating, and it had really made an impact on her. The mask is the perfect complement and display piece. I HIGHLY recommend this classic, especially with the way politics is going currently in this country...

A lot different from the movie. Great read

The book is a Masterpiece as we all know, the mask is great for the price and the packaging was really good!

You will either love it or hate it but it is even more impressive today then when it was 1st printed. A modern day 1984 and Brave New World for today.

I had never read this book, and decided to read it on the basis the I enjoyed Watchmen, along with the outstanding story it provided. And when I saw that I could get the iconic mask with it for just a few extra bucks, I jumped at it. My one criticism is that the mask is a bit flimsy, but still perfectly wearable. The book is amazing in every way. The characters are real, the plot is breathtaking, and the are is in a class all its own. For those who haven't read this, you should change that.
