Customer Reviews

I got her first book and this one is even better. Learned a lot about why I "stress-eat" and how to change my thinking and habits. Recommended to anyone who might eat for reasons other than hunger. Don't we all ?? Well, most of us do.

This is the third book of Dr. Albers that I have bought. I am changing my anxious relationship with food and she is leading the way. What I'm loving about "50 More Ways" is that it's filled with creative strategies to respond to the mixed messages I send myself about food. As a massage therapist, I appreciate the body-centered approach of most of them. I'll be buying a few more copies for Christmas gifts.

Very informative, without being preachy, feels like you're listening to a group of friends chat. Many thoughts, quotations, ideas, tips and info for when you feel an urge to eat, but you're really not hungry... IT WORKS! Recommended it to my weight loss support group, and many there enjoyed the book too. Great to just open to any page for inspiration at those times of food cravings.

Recommend!

I only recently "discovered" Dr. Albers' work and pre-ordered her new book "50 More Ways to Soothe Yourself Without food." It arrived right before Thanksgiving. I just want to say that this book is very well written. It is thorough, genuine, well thought out, and has great tone. This book really stands out to me. It is backed-up by science and very inviting. I am on a determined path to drop some weight, as a full-time working mom that comes from a long line of morbid obesity. I used to think I was the thin one, but time and stress and eating for the wrong reasons has made me chubby. I am working with Weight Watchers (a great program) and just recently discovered the revelations of "mindful eating." Thank you Dr. Albers for your amazing tools and encouraging style. So happy to have found this little gem of a book.

Dr Susan Albers, she is the real deal!! She has given me real, doable tools, that I have put into practice ASAP!! Thank You!!
