Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the world's largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles

of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I'm old school, so even when I ordered the book earlier than came with links to ONLINE accompaniment, I really wanted CDs I could play on my computer, in my portable CD player, and in my car. This is EXACTLY what I wanted since I have the other books and CDs in this wonderful series already. Let me make this absolutely clear--THIS listing is for the CDs only. I waited to order them until the price dropped down to normal levels (for some reasons this thing was being scalped like crazy even on , for prices well into the hundreds of dollars!)The listed "paperback" is actually a folder that is a list of the tracks on the CDs (the giveaway is that this "book" is only 8 pages thick). You WILL need the sheet music to go along with the CDs to get full use of the tracks. This is also NOT a "karaoke" recording, so even if you play it on that sort of equipment (which you can), you will NOT get any graphics. The "paperback" does NOT contain lyrics, either.CDs of this kind is primarily useful for PRACTICE if and when a LIVE accompanist is not available, or the singer prefers to concentrate on singing and not having to play the piano at the same time. You COULD use it if you had to as an accompaniment for performances or auditions (if allowed), but you will then be restricted to whatever interpretation is on the recording (tempo, rests, etc) in which some decisions need to be made unilaterally in order to get the recordings done in the first place. The accompaniments also do not necessarily have the melody line in them if the original arrangement (which despite having to make alterations when transcribing to piano only) does not have them. This series differs from many others in that original show versions, including the key, are preserved whenever possible. Not having a melody line will therefore make it difficult for anyone to sing along with the recordings simply by looking up the lyrics elsewhere if this is a song that are not previously well-acquainted with. You NEED to have sheet music, which I cannot emphasize enough, does not come with this particular item.

I try all the products that I review for at least 15 days -- My hope is that if there is something that is an issue that I can spot it.Singers Anthology is always a terrific book..Disclaimer :- I have received this product at a slight discount in exchange for an honest review.My reviews all go by the same breakdown on my star rating of a product:5 stars Â¢Â“ I love it! It is awesome and I highly recommend everyone to purchase this product!4 stars Â¢Â“ I like it, but there are some flaws. I would purchase again.3 stars - It was okay, but I would probably not buy it again unless there are no

other options.2 stars      There may be worse products out there, but you can definitely find better choices.1 star      I dislike the product, enough said   I cannot tell you no, but this is as close to that as possible..

Love the book. Love the series and use them a lot!

I own all the Tenor Books in this series. Would like to have a CD included with piano accompaniment. Good product.

I was expecting to get the sheet music with the cds. It was just the cds without any sheet music. I had to return it.

just what my son needed for his college class

Voice coaches go to book

No music included, only CDs.
