Barbara Roth is a UCLA-educated painter and art instructor with a teaching credential in Art Education and Adult Education. She teaches watercolor, gouache, and mixed-media painting classes from her home studio near San Diego, Calif., and throughout the country. Barbara created Anywhere Art LLC to teach travel painting in Europe, and she leads small groups in England, Italy, and France, where her students learn to paint and draw in a relaxed, friendly atmosphere. Barbara believes that anyone can learn to paint and draw with a little practice, and she advocates using recycled, portable materials perfect for creating art anywhere. She brings a journal and paint set

everywhere she goes and has adapted her technique so she can create art in her car, in restaurants, and even in bed when the weather doesn't allow for painting outdoors. Learn more at www.barbararothanywhereart.com.

I'm new to art -- this is a friendly, helpful, and encouraging way to learn how to use watercolors "on the go" -- a step-by-step approach that makes you feel as if the instructor is looking over your shoulder offering encouragement. A great guide for beginners - and others thinking about trying out watercolors. And oh -- the paintings (examples) are beautiful.

I was looking forward to seeing Barbara's book, and it is wonderful! I bought it for a friend who loves to journal with watercolor, and she is really enjoying the "how to" pages in the book, from start to finish, how to create beautiful watercolor scenes in a journal. Barbara is a great teacher, and that shows in her precise, yet fun, instructions in this book. Beautifully done!

This book gives the beginning painter clear, direct instructions for painting on the go. It covers all the bases from putting together a travel kit to using value sketches. I ordered this book because I travel a lot and want to improve my woefully clumsy on-the-go painting skills. I am glad I bought it. Now it is up to me to read and heed. As an aside, the illustrations are a delight. It is worth buying the book just to see them.

Barbara is a terrific teacher. If you've ever told yourself you can't paint, you are wrong and this book will teach you how to do it anywhere! So much fun!

This is a wonderful book for a watercolor beginner like myself. Barbara goes through all the essentials in a "non-threatening" way. She knows how to make the art approachable to anyone. Her whimsical artistic style makes this book fun to follow. I highly recommend this book to any watercolor beginners, hobbyists, and urban sketchers!

Barbara Roth's inspirational book "Anywhere, Anytime Art: Watercolor" is a great guide to creating a portable studio that works for plein air painting as well as working from photos. The book covers the elements of art and design including color palette, color theory, selecting a subject, drawing tips and painting techniques. It is a very informative visual step-by-step instruction book on doing anywhere, anytime art. I highly recommend it. Following her techniques has helped me immensely.

Barbara's book is as charming as she is!! She writes like she teaches. I have found many hints and tips that I never would have known without her instruction. The format is clear and orderly. I love the way she takes you from a sketch through to the completed watercolor. Thank you, Barbara Christie Clark-Edelson

This art book will help you create a portable watercolor kit or get set up to paint during short breaks. The author described what tools and materials are best suited for portable watercolor painting. She briefly described how to sketch a scene and then paint it, and how to do this from a photo. She very briefly described color theory and different watercolor techniques. She then provided 12 step-by-step painting projects that are fairly simple to draw and paint. The cover painting is one of those projects. The author's basic technique is to sketch out a scene then paint in the colors with watercolor (without getting too detailed). While the author did give some tips that would be helpful for beginners, it's aimed at people already familiar with the basics of watercolor. For example, there are no pictures of what a "puddle of paint" looks like or how to do a flat wash. She assumes that you know what that means or can guess based on her text descriptions. In the step-by-step projects, she tells the reader what colors to use for different objects and what technique to use to apply it. The changes between the steps were small enough that I could see what was being done and didn't feel confused about what she was describing. Overall, I'd recommend this book to those who like her style and want to go more portable. I received an ebook review copy of this book from the publisher through NetGalley.
