Speedy delivery, and good product.

Nice almost nothing in it

In the book of Eli, Denzel Washington protects the last existing bible from a group of men who believe its words have the power to subjugate the human race in its entirety. The story indicates that there was a great war resulting from religion and in response the government destroyed all books about religion and the world then plunged headlong into darkness. Well now I know it wasn't the American government because we totally have the first amendment and you can't get away with that nonsense. I bet the movie took place in Russia or something. Commies.
