Asi Lo Veo: Gente, Perspectivas, Comunicaci3n (Quia)

Synopsis

Increase students' ability to comprehend spoken Spanish; express their ideas & opinions; and analyze cultural perspectives while challenging fixed beliefs and cultural stereotypes. These outcomes motivated the respected author team of *Así- lo veo*, the first Intermediate Spanish program to use a documentary, filmed specifically for the program, as the basis for instruction and learning. Since a documentary captures real situations and personal perspectives it is the perfect vehicle for increasing student engagement. With *Así- lo veo*, the documentary motivates the presentation of contentâ "vocabulary, grammar, and cultureâ "and by extension, the learning. Specifically, *Así- lo veo* documents how six Spanish speakers view timely, provocative themes. Because these are everyday people, not actors, they bring unscripted, real language as well as fresh ideas to the context of learning Spanish.

My Spanish class requires the DVD that goes along with this textbook, which I thought would be included because it is brand new and shipped from . It isn't. For this reason, I recommend buying it used to save another 50% compared to 's price.

textbook for college - cheap and easy option for renting

Came in good time, is exactly what was advertised and exactly what I needed

This book was exactly as the product description provided. Other support books are available and described, which helped me understand what this product was.

Great!

Great book but there's no return return directions

needed it for class, but it was still a nice book!

I am a current student of Florida State University (FSU) and this is one of the required books for Spanish class. Though the content and organization of the book is not the great, the savings I got from purchasing this book online was great. By purchasing this book on , I saved over \$120.00. The only thing that I noticed that the did not take note of was that the book did not provide a code from the online website version. However, one can simply by a code from the actual site rather than buying the book with the code from the school bookstore.
