James Patterson has had more New York Times bestsellers than any other writer, ever, according to Guinness World Records. Since his first novel won the Edgar Award in 1977 James Patterson's books have sold more than 300 million copies. He is the author of the Alex Cross novels, the most popular detective series of the past twenty-five years, including Kiss the Girls and Along Came a Spider. He writes full-time and lives in Florida with his family.

San Francisco PD Detective Lindsay Boxer is suspicious about unexpected deaths at a local hospital--especially after the mother of one of her friends inexplicably succumbs. The Women's Murder Club is soon involved in finding the person responsible--and at risk to themselves. Carolyn

McCormack's performance is superb. Her ability to capture the essence of each of the main characters is impressive; her skill at fleshing out even minor characters is rare. Her spirit, enthusiasm, and emotional involvement help the novel, which has its predictable moments. Overall, McCormack's ability to keep each moment fresh and alive makes this program a real treat for the listener. M.A.M. Gee, have you noticed how many reviews have the word "fluff" in the title? I think it's because we all know that if you started reading this series, you'll probably keep on reading it, but we all know that it's not exactly great literature. This is a fast, fun, fine installment in an easy-read series, perfect for brainless beach reading. A good friend of mine noted that she was able to read it in half the time it usually takes for a book this size, because many of the chapters are about a page and a half long, and the chapter title pages start in the middle of the actual page. The book could have been easily printed in about half as many pages, so it's not even as "weighty" as its actual weight. But, come on. We knew that going in. You're probably not going to start reading this series on the fifth book, so we

all know what we're getting by now. Enjoy it! Wait for the paperback or go to the library if you feel cheated by the fluff in hardback form. Granted, this is not the James Patterson of *Along Came a Spider*, but again, you should expect that in this series by now. If you already like the series, you'll like the book - if you don't like the series, there's nothing new for you here. If you haven't read the series yet, start at the beginning and then decide.

I love this series, James you have done it again! I would love to give this book 10 stars because it deserves it in a very big way. The twist and turns that have you thinking you know who they are, then darn not the ones. A doctor and a very well known lawyer scheming to take money from a big well known hospital while there is a "Night Walker" going around the hospital killing innocent people and their stay is not life threatening. So the families of 33 people died for unexplained reason that didn't make sense took the Hospital to court and lost. By the lawyer and the doctor that thought up the plan was in thick of it. But at the same time they had to figure out who was killing and raping these college girls going to an escort service to make extra money for rent and school books, putting them in very expensive cars and they have been bathed and dressed in other clothes that are not theirs. This book had 3 different cases at once and one was more twisted than the next. I didn't get any sleep at night wanting to know what was happening next. **YOU GOTTA READ THIS IT WILL NOT DISAPPOINT YOU!!!!** James Patterson fans **"I TRIPLE DOG DARE YOU TO READ THIS BOOK!!!!"**

I liked this book because I love to read books that I cannot put down. I go through such a mourning after reading a thriller, my only solution is to pick up another in the series of the "Women's Murder Club" by James Patterson.....onto #6...."The Sixth Target."

Intense without incurring regret at my pick. Fast paced; full of writing skill that just screams JP instead of one of his helpers...Engaging, with a different premise than most. If you like Alex--or JP--you'll feel like you got the Real Deals. Something that sadly, is not always the case anymore. Read it! I don't think if you are a fan that you'll be too disappointed!

Well written with several different murders going on at different times with different cases and a very different ending couldn't put it down.

I like all of James Patterson's audio books. And his Woman's Murder Club series is great. I listen

while I'm working on my crafts.

I love James Patterson books. I have followed his Women's Murder series from 1 - 9 and getting ready to order the rest. They keep you in suspense.
