## Customer Reviews

Great!

REISSUE...IF YOU HAVE: Zendoodle Coloring: Fragrant Blooms: 70 Wild Flower Mandalas for Peaceful Coloring and Relaxation by Martin Weber...THEN YOU HAVE This color book. Images are all stock and exactly the same in both books. Am giving them two stars instead of my usual one since we are given the copyright pages to double check our coloring books. Start telling us they are Reissues and I'll give out at least three stars...When we buy coloring books in stores we can look inside to see if we like the designs and check for any designs we already have. WHY Not Here On ??

I had previously purchased this coloring book and really enjoyed the different floral mandala designs. However, the print link was no longer active so I was very glad to see a re-issue and fortunate enough to grab it when it was free. This version offers an active print link and I was able to save it on my computer. In this book there are 70 designs and most appear to be floral or inspired by floral designs. Most are quite detailed, making this book wonderful for gel pens. A few of the pages are too heavily outlined in black for my taste, one star removed for that. The print link is located at the end of the book and works well.
