good condition

I am a college student and this was a fairly reasonable price for a new book! Came quick and in perfect condition!

Compressive textbook. Got this as a textbook for a class on Interior Designs, and thought this was a really good introductory book. I enjoyed the pictures, and the descriptions of real homes, such as Falling Water.

I Had to buy this for an intro class. Good format with plenty of explanation and examples. Would recommend for beginners.

Had to have it for my design class. Has a lot information. Very expensive for a digital version but so much cheaper than the actual text.

Renting the book and it was VERY used!!

textbooks are textbooks so... it was colorful and well written
