Customer Reviews

This book sums up everything about being "Higher Status". I'm a long time customer of Jason Capital and he has totally transformed my life. By that I don't mean sitting home like a geek. I have been travelling the world in my own quest of happiness and success. I have attended several of his live-events and I can say his energy is for real.A lot of authors and motivators is good at speaking but what I really like about Jason is that he lives it. He lives what he teaches in this book. He dedicates his life to this purpose. I respect that!Becoming higher status will help you in every aspect of your life. This book is a must if you want to tap in to your own potential and grow. He is blunt and straight to the point. Not for the faint-hearted. But sometimes I think that's what people need, to WAKE-UP!Best,/Tobias EngstrÃ¶m

Jason Capital knows status. What it is, and what it's not. It's not about what you have or even accomplishments, as such -- though accomplishments tend to follow it as a matter of course. From fueling your body properly so your engine runs well, through useful exercises that can work your "status muscles" into game shape, it's here. Read, act, be, and reap the rewards!

Jason has nailed so many subtle yet powerful points on being high status it's like he's built a mansion of high status for all of us to walk into and realize what it's all about and orientate ourselves towards being more high status so we own it as our own home. The book shines light on so many practical high status triggers that it has awoken me up to my own high status that is has always been there, that i just need to integrate with and own.

It's not often for me to be profoundly impacted from reading a book on personal development. This is one of those times. This book is power packed with wisdom to last a lifetime. Thank you Jason for your knowledge and intense desire to elevate every man's life to that of Higher Status.

If YOU Want Fast action Success & Achievement...REAL Change in YOUR Lifeee...Then...YOU Need to...OWN this Book...Read..Reflect..Read..Reflect..Apply...Reflect...WOWWWW...this WORKS...PERIOD!!!You do not need to read any other Book..in the World...HE combines ALL the information from ALL the So called Gu Ru's..(who actually did what they claim) Who went from

Rags to Riches...And...Puts ALL that information...simplifies it..breaks it down into simple basic instruction to Use & Apply & GET What YOU want!!!! PERIODBobby K N.J. Shore

This is an amazing book the amount of mind shifts and the way he changes your thinking is mind blowing makes me start questioning everything because I don't know what just happened my brain was turned to mush and I can't process any thoughts because I can't believe all the lies I have been told on how to act but after I let the information sift into my brain and take action on implementing everything well life is astonishing now and of course I'm not surprised anything I get from jason is always inconceivably mind altering

I give this book 5 stars, as it is so full of actionable information that you simply cannot read it without becoming higher status - it is a veritable mass vaccination against mediocrity!The best part is - when you go over it again in 6-8 months (you will want to), your future higher status self will find new ways to apply the material to rise to yet another level again, because the steps of each exercise have been so cleverly designed that you can take them over and over.

I've been a student of Jason Capital's for some time, so I wasn't expecting too much I wasn't familiar with in his book.But when I got to reading, it was like the first time I ever purchased one of his courses. New insights, and more importantly new ACTIONS were making themselves apparent with every page.I shaved at least a year if not more off of my own goals of personal development by internalizing and applying what he presents in this straightforward but complex work.
