# Laugh Your Way To A Better Marriage: Unlocking The Secrets To Life, Love, And Marriage

## Synopsis

Based on Mark Gungor's wildly popular seminar, *Laugh Your Way to a Better Marriage*® builds on Gungor's success with tens of thousands of couples who credit him with enriching, and even saving, their marriages. By using his unique blend of humor and tell-it-like-it-is honesty, he helps couples get along and have fun doing it. Through exploring a variety of subjects including the myth of a "soul mate," the different ways men and women think, the conflicting levels of libido, and the necessity to forgive, Gungor proves that the key to marital bliss is not romance or destiny -- it's work and skill. Couples need to work hard at maintaining their relationship and to have the skills to pull it off. The longer spouses wait to learn these skills, the greater their chance of wanting to bail, yet Gungor makes it easy for couples to bring their relationship to the next level.

Marriages"Mark Gungor has all the credentials and experience to weigh in on the issue of marriage, but his street-level perspective and his tongue-in-cheek way of conveying his wisdom make it easy to absorb the truth that he shares on a subject that -- for many couples -- is no laughing matter." -- Dr. Tim Kimmel, president of Family Matters and author of Raising Kids for True Greatness"This was more than a book to us, it was an experience. We felt understood, empowered, and completely covered. This book will help you!" -- Matt & Laurie Crouch, Trinity Broadcasting Network"Marriage books? I've read them all. This one's the best -- absolutely rock solid advice, delivered in hilarious prose. This is the first marriage book that's totally fair to men, and totally liberating to women." -- David Murrow, author of Why Men Hate Going to Church

Mark Gungor is a pastor, motivational speaker, author, and musician. With thirty years of speaking all around the globe, Mark's latest endeavor is to help young couples unlock the secrets of a successful marriage. In his seminars, Mark teaches principles for marriage in a way that empowers couples without being "preachy." Born in New York, he now resides in Stevens Point, Wisconsin where he is the CEO of Laugh Your Way America and Pastor of a local church. Mark and his wife Debbie have been married for thirty-two years and have two grown children and two grandchildren.

What a fabulous book on marriage! Really and truly. I bought the paperback to give to my husband. It is a fun and easy to read, on point book. He touches the very core of nearly every part of the puzzle of marriage. He is funny. My husband is not a reader, but I think he will make his way through this one without much trouble. I would really love to do one of his seminars! I already have recommended it to everyone! There are just so many aspects of such an intimate relationship and no matter how good it is, it can be better, deeper and more fulfilling.

The author points out that this is not a book to laugh at marriage. But the author is a funny man. He presents the information with humor but the information gives you an excellent understanding of how men and women think and react. You learn that the agitation your spouse causes is not unique to your spouse AND there are ways to deal more effectively with your sweetheart.

Great material

This is an awesome video series. Through this book couples are able to understand their spouse from a outside gender perspective. Also, Mark Gungor touches on lots of spiritual details that most

would not consider about marriage. He uses humor to reach people, which to me, is amazing. I would highly recommend this to anyone going through marital crisis or to those looking to be married soon.

The title of this book sounds frivolous but the contents are anything but! I have learned some new things that have definitely made a difference in the way I view my husband and our marriage. I would recommend this book to anyone who is thinking about getting married, married, or thinking about ending a marriage! The principles taught in this book, if applied, could definitely make a difference between marital triumph and tragedy!

any couples struggling with their marriage, this is a must read.

I am not married but have been looking for a useful resource material that is simple and practical (as opposed to theoretical) to give me an accurate picture of what it's really like to be married. Gungor's book is exactly what I needed. I do not hesitate to recommend this book to all the young single men and women (especially those who have never been married) and who really desire to build a strong foundation for marriage in future. I think this is a good book to keep, even after marriage as a reference guide. Infact married couples experiencing marital problems would be best advised to read this book together, it would save hundreds of dollars in marriage counseling fees.

This book really made a difference in my marriage
