Blood Of The Fold (Sword Of Truth Series)

Synopsis

In a fantasy world as rich and real as our own, Richard Rahl and Kahlan Amnell stand against the ancient forces which besiege the New World - forces so terrible that when last they threatened, they could only be withstood by sealing off the Old World from whence they came. Now the barrier has been breached, and the New World is again beset by their evil power. War, monsters, and treachery plague the world, and only Richard and Kahlan can save it from an armageddon of unimaginable savagery and destruction. Terry Goodkind, author of the brilliant fantasy bestsellers of the Sword of Truth series, has created his most masterful epic yet, a sumptuous feast of magic and excitement replete with the wonders of his unique fantasy vision.

Customer Reviews

After unwittingly destroying the magical wards that had sealed off the Old World from the New for 3000 years, the war wizard Richard Cypher discovers that he has inadvertently created a gate through which the evil Keeper, Emperor Jagang, and his minions can enter the land. Separated from his beloved, the former Mother Confessor Kahlan Amnell, who is in hiding to avoid being executed by the people she once served, Richard must now accept the power of his father, Darken Rahl, and use all of his magical abilities to defeat Jagang, to save Kahlan and to close the gate. As in the two previous novels of The Sword of Truth fantasy cycle (Stone of Tears, etc.), Goodkind builds an intricate plot teeming with violence, treachery and intrigue. Newcomers to the series may

find it a challenge to get up to speed, but once they do, they?as well as Goodkind's large, loyal readership?will delight in a complex epic fantasy that crackles with vigor and magical derring-do. Author tour. Copyright 1996 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

This is the third installment of Goodkind's heroic fantasy "Sword of Truth" series. Reluctant wizard Richard Cypher and his love, the warrior Kahlan Amnell, live in a world of magical boundaries that hold back the forces of darkness. But war is coming because the barrier between the worlds has been breached, and the "Blood of the Fold," a group of fanatical zealots, is attempting to kill all people with magic. They are nothing, however, compared to the ancient, unspeakable evil about to be unleashed. There is a lot of sword and sorcery action here, and although it has a darker tone than most fantasies, there is also a strain of humor unseen in works by Robert Jordan, Terry Brooks, or David Eddings. In addition, series protagonist Amnell is rapidly becoming one of the most interesting female characters in a genre where they are few and far between. Buck Schirner is an adept reader, expert at rendering this vast, glittering tapestry of a world. This superior production is an excellent choice for public libraries where multivolume fantasy series are in demand. I read the book many years ago but had a traumatic brain injury in the interim. And of course it is nothing like what I remember and it seems to be written for the teen crowd.

Wow I can say that sums it up. It start with the dark lord dwarfs, elves, druids, humans and other races. Ends with dark lord defeated. Read on for more.

If you enjoyed The Sword of Shannara trilogy you will enjoy this prequel that fills in historical details for those of us who have become immersed in this world. I will most likely return to read more of Shannara, but not right away as the theme of epic battle strategy between the living races and the next to invincible evil mostly dead creatures of darkness has become temporarily tedious to me. I enjoy this author's work and will be back.

I love Goodkind and the message he sends with his books. And of course the amazing and fantastic creatures and magic, but I find in all of his books that the characters make speeches more than they

talk. After the first paragraph of dialogue the characters really just repeat themselves for another 2-6 paragraphs. I like to think that I am bright enough to get the idea the first time. And these books are a bit rapey. Not something I want to read to my daughter no matter how much I approve the political message.

Greetings Reviewer, The 1996-3rd writing about the "Sword of Truth" series by Goodkind, excites our imaginations with a world of good vs evil in the dark ages; magic, love and truth. The well chosen reader of this CD book series varies his voice for the different characters and emotional tone adds a realistic dimension to the story. Unlike Kindle type devices which has a mechanical voice void of tone and emotion which flat-lines the story. Also I recommend these CDs be played on more current mp3 format devices. My 2006 car audio system and some of my older CD player devices I tried using will NOT play mp3. I did purchased a portable mp3 CD player unit which works fine with these CD mp3 disks. For those lengthy trips, listening to these CD book series keeps my mind engaged on those long travels. Enjoy the series, SacMac1

This guy can really spin a tale. I love sword and sorcery stories, and have read 'The Hobbit' and 'Lord of the Rings' many times over. Never heard of Terry Goodkind before, but thought I'd give him a shot. I found myself getting really angry at some parts, because Terry pulled me deeply into the action. We've all heard the expression, "I couldn't put it down", but few books can say this. 'Wizard's First Rule' got me started, and I'm halfway through Book Four. I think there are at least eleven already published in this series, and I just heard of a twelfth. If you're like me, I re-read books because they all end way too soon. Terry has startled me with his gift of imagination and eloquent prose...and it just keeps on going. The second book, Kindle Edition, is fraught with thousands of typos, which I find REALLY aggravating, but the others only have 3 to 5 per book...so far. My favorite new writer, who has no doubt been around for quite a while, or extremely prolific, though I never heard of him before. Highly recommend you read 'Wizard's First Rule' for yourself. Not a stream of consciousness writer like Stephen King, who I absolutely detest and refuse to read.

Terry Brooks continues a well balanced, thrilling adventure. That has well thought main characters as well as supporting characters.

Standard fare Terry Brooks. Well written but tends to follow his heroes quest formula. Enjoyable story as part of the Shannara series
