Christian Cathedrals Stained Glass Coloring Book: For Adults And Children Including Bible Themes, Rose Windows, Gothic And Floral Designs From The Medieval And Renaissance To Modern Eras

Synopsis

Relax and have fun coloring inspirational pictures and designs while becoming acquainted with exquisite stained glass windows from around the world. This coloring book is designed for children, teens, and adults, from kindergarten age to senior citizens. The 32 beautiful full-page illustrations in this book were adapted from actual stained glass windows from some of the world's most magnificent Catholic and Christian cathedrals and churches dating from the Medieval and Renaissance to the Modern era. They include rose patterns, Gothic and floral designs, and Bible themes. There are also 20 gift cards to color and cut out taken from the same illustrations used for the full-size coloring pages. The illustrations for the card take up 1/4 of the page so that the pages can be cut out and folded into quarters to make a greeting card. Cathedrals are generally designed to be spiritually touching and awe-inspiring with the idea to lift one's attention to the heavenly things. Sometimes one need only to step inside such splendid churches to feel a wonderful sense of inner peace. Many stained glass windows are also designed to teach about God, Bible stories, and the lives of the saints. As with the great cathedrals, the illustrations in this coloring book are intended to inspire the mind, soothe the heart, and uplift the spirit. With this book there are no rules on how to color, and you don't even need to stay in the lines. Feel free to use any colors or media you like such as crayons, colored pencils, felt-tip pens, or markers. The illustrations are printed on one side of the page on 60# library-quality, white paper. If using markers or paint, a sheet of paper may be inserted underneath the page while coloring it to protect the next page. Coloring is a great way to unwind and to express oneself artistically. Happy coloring!

I really like the idea of coloring something that I could, if I had the time and money, go look at with my own eyes. Abstract animals, shapes, and patterns coloring books really didn't do much for me. This is more interesting because I'm giving my interpretation, at least in the colors, of a work of art that someone else has done. Some of the drawings are very detailed while others are more abstract...but that's an accurate depiction of the actual works of art. The book tells a little bit about each window, mostly just where it is, what church, what city, etc. I would like a bit more information, but that's what Google or Bing is for, right? I usually wait until after I've finished coloring the window in the book, then I look it up online and compare the colors I chose to those that the artist who made the window used. Sometimes I've been pretty close...others, not so much. Another really nice thing is that in the back of the book, there are several pages with smaller images of the windows that you can color, tear out, and make into greeting cards! I think that's a very nice touch. I really like this book and I find it very relaxing.

I gave these as part of a gift. Both people were pleased. This book has scenes from many important cathedrals. It makes it even more special when you have been there! I plan to order another one for myself!

It was a gift, happily received

A lot of the coloring pictures in here are approx. 5in x5in or so -- was disappointed as I assumed they would fill the pages in the book.

I love these books. This one on Christian cathedrals was particularly appealing to me as it had a

variety of levels of intricacy, perfect for my child who some times was more detailed pictures to colors and some times wants more simple. I love the concept of taking something artistic from the real world and translating it to a coloring book. One reviewer commented on the size of the images. The images do vary in size, which can be helpful for allowing additional creative space in the book, whether for telling a story about the image or drawing additional images.
