Skill Builders: Spanish I for grades K-5 helps children get a jumpstart on learning Spanish. Its age-appropriate approach helps kids master beginning Spanish vocabulary. With more than 70 pages of activities, Spanish I includes topics such as colors and numbers, foods, family members, animals, the weather, and parts of the body. The book's inviting format, easy-to-follow directions, and colorful illustrations help build children's confidence and make learning Spanish more accessible and enjoyable. The Skill Builders series promotes the development of essential, grade-specific skills. Each book provides focused practice and includes examples and explanations of new skills. Activities follow a natural skill progression and align with state and national standards.

By building upon already learned material, each book in the Skill Builders series motivates children while reinforcing the concepts needed for academic success

I bought both Spanish I and II for grades K-5 for my 9 year old. We haven't used them yet, but I did look through them. The good: They cover a good amount of vocabulary. They aren't overwhelming, each page only has about 5-8 vocab words on it. The pictures are colorful but not cheesy and cartoon-like (I hate that for kids older than about 5-6). Seem very nice for the price. The not-so-good (I won't go as far as saying "bad"): The books are kind of slim and small. They are both only 80 pages including the table of contents and answer key, and measure about 6"x9", smaller than most workbooks. Still, I think they cover a lot. They do not introduce much in the way of actually SPEAKING Spanish. Verbs and common phrases are not included in the lessons, aside from a small amount in the instructions (which are translated). You will definitely want to purchase something to supplement these to teach verbs and common phrases. Spanish I contains vocab for: Town Square, Alphabet, Numbers (1-20), Colors, Days of the Week, Seasons of the Year, Weather, Animals, The Body, Clothing, Sports, Family, The House, Household Items, Food, At the Table, At School, The Classroom, Helpers in the Community, Professions, Transportation. Spanish II contains: Numbers (1-40), Calendar, At the Supermarket, Fruits, Vegetables, Breakfast, Lunch, Dinner, Health, Accessories, Household Items, Tools and Materials, Communication, Activities, In the City, At the Bank, In the country, Wild Animals, Nature. One additional note: I think K-5 is an accurate grade level expectation, but for pre-readers and pre-writers, you will obviously have to work through it together and practice together. Older children could do much of it independently though.

Bought this, along with another book to supplement out homeschool curriculum. Good exercises, simple building in difficulty. Good purchase.

Its smaller and much thinner than I expected. The interior content is very basic. The same pages could be found in Google/Pinterest for free.

The book is OK. It's for basic words and basic sentences. Doesn't recognize 'W' as a letter, perhaps some leftover resentment from the Clinton administration. The activities are similar, you look at pictures, write, memorize, then write what you remember. Fun!

Good product. Timely arrival.

Good skill builder

The book I received is upside down and in the cover backwards. I am taking third grade Spanish with my class. They think that it was funny to have the book that way - I was not. I kept it because my class started the next day after I received it.
