My two year old nephew is obsessed with dinosaurs and he loves this series. Cute illustrations and the rhymes are simple. Minus one star because the first half of the book kind of suggests things you should not do to your dog. When I read this, I almost feel like I have to add a "no" to each of the mean things that they ask whether you should do to the dog!

I expected a 5-Star book, based on reviews. The illustrations are wonderful, but I wasn't a fan of the writing. The first half is asking if Dino neglects his dog (letting his bowl run out of food etc) and the last half repeats the question but answers w/ a positive. (No, he feeds him everyday.)

This is one of our least favorite "How Do Dinosaurs...". It didn't seem to flow with the same type of text as the others (....Say I Love You, ...Eat Their Food...). My daughter was also bummed - and it was probably my fault when ordering - that this was a board book and not a large paper book because it was missing the inside cover that shows all the dinosaurs doing different things - that is one of her favorite parts of this series. Our other books are from a used book store and our copies may be "school issued" versions so maybe that is why...but still disappointed not to have those extra pages. The book is cute but not really one of the best from the dino series. Can't say enough about the others though!

We love all the How Do Dinosaurs books, and this one is no exception. Cute rhymes, adorable pictures, and of course dogs! I can't say that it has made my 1 year old nicer to our pups, but it is one of his favorite books that he wants to read over and over. It's cute and short enough that I'm happy to oblige.

This is an awesome book to have in your collection. I bought this for my 4 boys 8, 2, and twin 1yr olds. They all love for me to read these books at night time, but this book was rather helpful. The book at first shows how not to treat a dog then it shows how you should be treating your dog if you love it. My 8 yr old realized how he was not treating our dog right, and made a decision to treat him well by walking him. My 2 yr old now wants to feed the dog, and well, the twins still wants to lay down on the dog bed. Awesome book if you are thinking of getting a dog for the kids, nice whimsical way of how they should love their dog.

These are seriously the best books ever! I love how well they're written and my kids adore them!

Thank you! It makes reading so much more fun for them!!!!If you found my review helpful, please click the helpful button. I take my reviews seriously and I always read other reviews before buying.If my opinion of this product changes after excessive use, I will edit my review to reflect that.

I purchased this book after a few negative behavioral problems arose from my daughter after we adopted a new puppy. We has tried limiting her contact and redirecting her with no success. To spare our poor pup's sanity I began looking up books for children on animal treatment. This title caught my eye. It gently directs little readers to what is acceptable and unacceptable in terms of handling pets. Wow. I didn't expect the results I received. After two nights of reading this, my daughter stopped rough housing with the puppy. She now confidently plays gently with her puppy. If she gets too rough we sit down with our dog and read, and then she apologizes and the behavior changes.Age of child-4Interest of child-4 out of 5.Illustrations- detailed and colorful, keeps the reader engaged.Quality of material- we've had our copy for months and no major folds or bends in spine or cover.Message- handling animals with careDid the reader follow the message or show understanding?- yes, significantly.

My 22 month old son loves the Dinosaurs books by Yolen. These books have a simple rhyming story line. Purchased as a board book which is thick and great quality.
