Oracle - River Of Ore (Volume 3)

Synopsis

Two elements collected (earth and fire). Will the pain from Sunken Earth ever subside? Will the smoke rising from Fire Island ever disperse? Will Ret, Ana, and Paige ever complete their sophomore year? No, not yet! A third scar has appeared, pointing them to a place where Mr. Coy refuses to go. Fortunately for him, a fourth scar surfaces, one that takes them to the Rainforest, the Sahara Desert, and ultimately the City of Gold. We follow our heroes across sea and sand "along rivers wet and dry" on a journey that spans multiple continents as they seek out the hiding place of the third element (ore). Organized or vigilante, trouble finds them at every turn in lands where deadly curses abound. Somewhere, between golden arches and ancient ruins, an age-old secret is waiting to be uncovered. But Ret's enemies are multiplying, a grim reality that will try the hearts of his friends. And even while some romances bloom and others fade, Ret and the gang must stay on guard. The Oracle is wasting no time now, clearly hastening the gathering of its elements. Things are in full motion; Ret feels this. So does Lye; he is ready "and waiting."

'C.W. Trisef' is our pen-name (the 'C' stands for Chad, and the 'W' stands for Wayne), and we've both been dreamers for as long as we've been brothers. In 2010, we teamed up and started writing The Oracle Series: a seven-book, fact-based, fiction-adventure series that chronicles the quest of a young man who travels all over the world, exploring earth's greatest mysteries and collecting nature's six core elements. Since then, we've published the first five books in the series and visited hundreds of schools and communities all over the country, igniting the love of reading and

encouraging a movement to #CureTheWorld.

My son and I have enjoyed this series so far and look forward to the next three books. This one was filled with action. Hard to put down.

The intensity rises, the plot thickens, hidden secrets emerge, and C.W. Trisef is as clever as ever in his third book! Ret meets even more people as he searches for the third element, Mr. Coy reveals a shocking secret, Mrs. Cooper goes on adventure of her own, and they find out what the connection is between the lush Rainforest and the desolate and dry world of the Sahara Desert. But Lye is growing stronger, and so is the pain of the memories of Sunken Earth and Fire Island. Will Ret make it? See for yourself and read Oracle: River of Ore!

This series continues to captivate my son, who tears through these books in no time! With so many trashy books written for the YA audience, I am thrilled to have found an author who writes engaging stories that challenge and engage young readers!

The Oracle delivers with another elaborate plot pulling together the earth's great mysteries. Travel around the world again with everyone's favorite albino teenager and his crazy coy neighbor. A delightful journey to entertain just about anyone, but especially for those who wish they could just pack their bags and blast off for anywhere in the world at a moment's notice. The mystery just keeps growing!

An amazing book. It was my favorite of the ones I have read so far. It had amazing characters and the plot is so very interesting. I recommend this book.

I just finished the third book of the Oracle series, River of Ore. I can't wait for the next book to come out. River of Ore was an adventure that I didn't want to end. I enjoyed the old characters and the new ones....it was a page turner! I would highly recommend the entire Oracle series - great books for teenagers to adults.

This book follows the continuing story of the oracle, but gets even better in the flow of the story. The story develops more relationships and some more emotion in the characters, but keeps the excitement of the chase.
