Grade Level: 7 and up

## **Customer Reviews**

Excellent. Not only met but exceeded my expectations.

We'll be studying the book of Deuteronomy and I have ordered other Jewish commentaries that help me understand the Old Testament. This one has commentaries from rabbis of the past, and this is what I'm interested in - interpretation and historical contexts.

excellent resource . suitable for every level of adult learner, with note and references to many other works my favorite small commentary

great

## Easy read

The issue is not with the dealer, the book was simply what I thought I was purchasing and doesn't really meet my needs. Again, the book is fine, service was good, but it's not what I needed.

I ordered the above book, but the seller sent me the Genesis book instead, abd I don't know how to find out who I bought this from.

Rabbi Fields's Torah commentary is splendid. It is fun to read and offers insights that can be picked up at a glance in brief sittings... or can be mulled over and discussed and debated in depth with friends and family. Originally I got this text as a gift from my father to help with teaching my Bible studies class to high school students. The students love the text -- and I also found it a joy to explore on my own. This is not just a textbook, but an ideal home Bible text... a perfect gift to yourself or the student of any age. Enjoy!
