Byrd & Igloo: A Polar Adventure

Synopsis

From the author of *Ghosts in the Fog* comes a story that will appeal to lovers of history, adventure, and dogs. *Byrd & Igloo* is the first narrative nonfiction audiobook to tell the daring adventures of legendary polar explorer and aviator Richard Byrd and his lovable dog explorer, Igloo. Byrd is known for being the first to fly a plane over the North and South Poles, while Igloo is famous for being the only dog to explore both the North and South Poles. The adventures of Byrd and Igloo opened the door for science and research in the Antarctic. Featuring direct quotes from letters, diaries and interviews, newspaper clippings, expedition records, maps, charts, as well as never-before-seen photos, it will give the complete story of the explorers' journey. Though rooted in history with evidence from many museums and research centers, *Byrd & Igloo* will be exciting in tone, making it accessible and interesting for young listeners.

Customer Reviews

My grand daughter just loves this book. She made a book report for school and received A. She read the book 3 times. She let her friend borrow the book over the weekend. Her friend said that was the best book she had read in a long time.

Great read!

This was required reading for my 9-year-old granddaughter's reading challenge. She really enjoyed

it.

I chose this book to high rate because it has Lot's of adventure nonfiction and science. It can be read over and over.

Great book for a report. Fast delivery!

If you want a fascinating, true story about a companion animal who was a part of history, then this is the book for you. I love the bond between this unlikely duo, and I have read many (most) books in this genre. I have recommended it to the "I Love Smooth Hair Fox Terrier" Facebook group and I recommend it here. You'll be happy to read and to share this book with others.

I really liked this book because Byrd wanted to fly across the North pole and South pole but it took him and his crew a lot of work to survive and fly across the North pole and south pole. They crashed a few times on there journey and on one of the crashes one of Byrds crew members died he was also his friend his name was Bennet. One of the times the plane was to heavy and they had to drop bags of food. But whenever Byrd got back from the plane Igloo Byrds Dog and Best friend was always there to greet him. At the end of the book Byrd finally accomplished flying over the North pole and the South pole. But later Igloo died from a illness.

My 10 year old can not put this book down. He is usually not much of a reader so it must be good! He was reading on the school bus ride home, before bed and again while eating his breakfast! I couldn't believe it.
