My son needed an authoritative source of literary criticism for a junior paper in his Honors English course. Since his school is online and we are located in a rural setting, this particular source met and exceeded his needs. The book is a compilation of literary essays by psychologists, literary critics and English professors. It was refreshing to find a thorough analysis of JD Salinger's definitive work and to discover that there are views about the antihero, Holden Caulfield, that do not promote him as a saintly or heroic figure who is the victim of society. There were a variety of explorations into the themes of the novel and some were very strongly pro-Holden, and others were not. It was an excellent and balanced source that enabled my son to achieve full points on his own

literary criticism analysis. Since obtaining inter-library loan reference materials is difficult, I am delighted that I was able to find this source online, and to obtain it much more quickly than the process that would have taken six weeks for our son to finally obtain a copy of this book or other comparable items (haven't found one by the way! Ben ordered some reference materials that were too divergent from his own thesis and it took 3 weeks to obtain those; to seek for more and order more--realizing that there were limitations on number of items and source locations; I was extremely thankful to find this on !)
