How To Design A Chair

Synopsis

How to Design a Chair tells you everything you need to know and looks at the principles and processes of designing a chair, from its symbolic and functional properties to materials and mass-production techniques. In a working case study Konstantin Grcic, one of the world's best-known furniture designers, traces the design and development of one of his most successful chairs - the Myto - from start to finish and reveals what it takes to create a successful design.

Best Sellers Rank: #532,132 in Books (See Top 100 in Books) #107 in Books > Arts & Photography > Decorative Arts & Design > Furniture Design

Customer Reviews

The Design Museum's mission is to celebrate, entertain, and in form. The world's leading museum devoted to contemporary design in every form from furniture to graphics, and architecture to industrial design, it is working to place design at the centre of contemporary culture.

Great book

I bought this because I have an interest in furniture design. It is a great resource for a teacher of Design or Industrial Arts at High School.

Bought this as a gift for my chair-maker son. Loved the simplicity and the depth of understanding about chair artistry.

Some history with a decidedly modern and commercial slant. Have just designed a chair of my own (wood and much lower tech), so found the second half especially interesting.

Great book, lots of pictures. Good example of design history

nice book and interesting but i was more expecting something different i wanted to see in book some theory about ergonomics

clean one sweet.... Excellent
