Italy By Bike: 105 Tours From The Alps To Sicily (Dolce Vita)

Synopsis

This new guide describes 105 itineraries covering all of Italy and cut out for both beginners as well as more expert cyclists. Each route has an average length of 30/50 miles that can be covered within one day, and is accompanied by color pictures, technical details (length, difference in heights, suggested season), description of the landscape, historical and artistic outlines, as well as other useful information and a schematic cartography showing the area and the route.

Customer Reviews

Some good general information covering many locations. A good starting point.

Perfect.

I was quite disappointed with this book. I am planning a bicycle touring trip, and I bought this book to help. Most of the rides in this book are ~30km loops meant for a sunday ride with the kids. Many are on poor roads, requiring a mountain bike, and many are not in very interesting locations. There are a few longer, more challenging itineraries. Not a book I would recommend for someone looking for serious rides.

I bought this book for the Tuscany/Umbria/Marche trip across Italy. I googled the route to get more specific direction and found the trip is not 540 km, as promised by the book, it is 450 km. All

subsequent information about this trip in the book is written based upon the 540km. I have not taken the trip yet, but am wondering what other glaring mistakes are made.

Good route descriptions for the touring cyclist. The routes are a bit short and unchallenging for the experienced cyclist or the cyclist seeking challenging training terrain. This is a good guide, and I have not found anything better. Recommend.
