The Art Of The Interview: The Perfect Answers To Every Interview Question

Synopsis

Here's a quick question: What would you do if your boss ordered you to do something that is against your values? No, that's not a trick question because it is actually asked by most interviewers! If you are not sure what the best answer is, then what you can do is find the right guidance. The good news is that you can find the help you need from this book! In this book, you will discover the steps on how to prepare for any interview. But most importantly, you will be able to answer the most commonly-asked interview questions. Each chapter will take you deeper into the sea of commonly-asked interview questions and provide you with the right strategies as well as concrete sample responses on how to respond to every one of them. The questions range from the most basic, such as "How well do you manage your time?" to the most - shall we say - unusual, such as "How many cows does the state of Georgia have?" This guide is for anyone who is planning on going to any interview, regardless of whether you are applying for your much desired position at your dream company or a top MBA program. The purpose of this guide is to help you think for yourself and, at the same time, provide you with insider tips that usually only interviewers know. So update your resume, polish those black shoes, iron that dress shirt, and start practicing answering all the interview questions you could think of. There is no better time than now to listen to this book!

Business & Money > Job Hunting & Careers > Job Hunting

Customer Reviews

An excellent book - conversational, easy and straight to the point. James in this book has outlined all the fundamentals needed in order to prepare ourselves for any interview. As I read through, I feel

that I was being coached by the author personally. He first explains about the situation, then asks questions (common and the tricky ones) regarding yourself, your work ethic and your background, etc. But he doesn't just leave you there. He also provides sample responses that you may emulate should you face trouble in answering them. A highly recommended book for those who would like to master the art of the interview.

This is a great book. It talks about everything you need to know to perform very well in a job interview. I am going to start looking for a job next week, and with this book, I feel pretty confident about going to the interviews when they call me. It's not easy, you still have to practice, be confident and prepare yourself before. But this book sure helps a lot during that process. One thing I really liked about the book is that it shows you what are the most common questions that they'll probably ask you in every interview, and also gives you an example of how you can answer those questions in order to give a very good impression to the employer.

gave some really great interview tips I also liked how he answered the typical interview questions with real examples and then explained why the answer was appropriate. very easy to adapt it to my situation and experiences

This is the most unsophisticated interview prep book I've seen. This should be rated for 7-15 year olds.

Very interesting points were presented. I liked the way various questions that were used in an interview were explained. I've kept this book as a referral for future use.

Excellent resource to plan for interview questions.

I imagine that the main thing before a job interview is being prepared. This book will help you make sense of how and what to do in this area. What I cherished about this book, was that it shows you to accomplish more than simply play to your qualities. Choc-full of useful information for someone who is in dire need of finding a new job. It will empower your thoughts and will learn the proper attack to questions raised by interviewee in short this book help to will increased your self confidence. Overall I think this book will raise the effectiveness of a person's job obtaining toolkit. highly suggested read.

Good book for preparing
