Customer Reviews

This workbook says it is for grades 5-8 and I disagree with that assessment. My child is in 5th grade and is gifted. He is at an advanced level in every subject. This book is not on par with a 5th grade education. I would recommend it for grades 7 and up. My son can do the lessons but it's not really for 5th graders in my opinion.

my students loved the book. it gave my students more understanding of our economics. the book came on time and in great shape.
