Customer Reviews

I like it. At first I thought it was missing a lot of words, but ingeniously, the entries are word stems, rather than words. And you get several definitions in one. And therefore more definitions in the book. It may not be the best choice for a beginner, but for intermediate to advanced, who want something toteable and useful, this works.

Not a comprehensive dictionary at all. Dont waste your time.

Compact yet all inclusive. I use these as translation dictionaries for my college ESL class.

I use them for the students in the classroom. Small, but pretty complete.

A compact and adequately comprehensive work. To be recommended.

Using it in my current class, bought it for a previous class. Very exhaustive for its size. I could use a little larger print, but handy to carry to class.

Perfect for college, highschool, or work. A good investment if you are just starting out in Spanish or if you already have a good grasp of the language.

its everything I expected
