This book was difficult to get into and at some parts difficult to understand what is going on...however it once you hit the mid point it really takes off. I really like the interaction of the characters and the story as a whole. The ending is a bit predictable but if you like cute, paranormal romances I recommend this book. It's a nice break from vampire novels that are popping up

everywhere.

This was a very well told story. It kept the reader on their toes and guessing what would happen next!

This was an awesome book, I was sad when it ended!! I believe that it would have benefited from more books in the series so we could have delved deeper into the characters!! I don't know what else to say except that these were books that you couldn't put down and hated to see end!!

I would recommend it. Looking forward to next book Good use of Scottish history and historical places. Wish word pronunciation accompanied Scottish dialogues.

This novel is intended for the YA audience with its teen romance plot line, but I enjoyed it nevertheless. The characters are likeable and engaging and the Celtic backdrop and sprinkling of language were most interesting. It would have been even MORE interesting if there had been a pronunciation key for the Celtic terms and expressions. I have always been a sucker for Celtic lore as that is my heritage and this novel linked old legends with new times quite well. I will look forward to the book(s) to follow in this series.

I really enjoyed this book it has an excellent sort of time travel theme to it. The immortal highlanders were a good idea along with the curse that made them that way. I loved it!! The end of the first book leads right into the second book and the third which I would have bought immediately, but they have not been translated. Please get the other books translated, I would love to finish the stories!!!

I chose this book because I was captured by its title and the brief description that was provided by Kindle. I enjoyed it but it did not keep my interest like other books I have ordered from kindle. I have read books from Kindle where I just couldn't put the book down. But The Curse was take it or leave it for me. It was very easy for me to stop reading and pick it back up at a later time. I am sure that those who reads The Curse will enjoy it far more than I did.

Good story line. Well developed characters. Will suck you right in. You can see Scotland thru Emily's descriptions. You will root for Samantha and Patton to break the Curse.
