ISBN-10: 1455912794

ISBN-13: 978-1455912797

Package Dimensions: 8.4 x 5.9 x 0.8 inches

Shipping Weight: 12.6 ounces

Average Customer Review: 4.1 out of 5 stars 14 customer reviews

Best Sellers Rank: #130,720 in Books (See Top 100 in Books) #109 in Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Electrical #421 in Books > Engineering & Transportation > Engineering > Construction #580 in Books > Engineering & Transportation > Engineering > Electrical & Electronics

Customer Reviews

National Fire Protection Association, Quincy, Massachusetts

The book itself is great, my husband is an electrician and it is a great source of information. We ordered from the NFPA seller/company through and had great customer service. There was a slight mix up and they fixed it immediately. I was very impressed with the customer service and the product. The spiral bound edition is great, it lays flat and will last for a long time.

Figured I would invest in the binder version this time, so I could add pages, etc. Wrong. Binder has 5 rings! How am I gonna punch the pages I want to add? Otherwise, this book has just gotten too big. Needs to be split into 2 volumes, one for just residential stuff. Maybe even a separate one for solar stuff (energy storage, etc).

Book arrived in great condition. The spiral bound is great for reading when looking at blue prints or

arguing with arrogant old school journeymen. It's nice in the wind too.

Super every electrician should have one

what I expected

Fast delivery, excellent product!

Exactly what I needed

Pretty sure book is a copy rip off text isn't the right size and you can see the where the copier has faded text. Pretty sure it illegal to copy books and sell them BS!
