Customer Reviews

I really enjoyed this book. I plan to purchase it for use in the classroom next year.

as expected.

Wrote like a college research paper with unnecessary verbiage and gross generalizations of populations. There must be better options out there for this topic.....

Used it during my didactic year of PA school and I liked it!

Arrived promptly and as described.

product came fast and in the condition as promised, I would purchase from this seller again in a heartbeat! :D
