FOXY GENT

Synopsis

What do you do when getting hard is too damn hard? What natural, safe and effective alternatives are there to prescription drugs like Viagra and Cialis? There is perhaps nothing as humiliating or soul-crushing for a man than experiencing erectile dysfunction. In a society that puts so much emphasis on virility and manliness, the failure to 'get it up' can destroy a man's self-esteem and ruin his relationships. The good news is: It doesn't have to be this way. In *Natural "Viagra": Cure Erectile Dysfunction Without Prescription Drugs*, acclaimed author and lifestyle coach Foxy Gent investigates what men can do to combat erectile dysfunction without having to go to the doctor for a prescription of little blue pills. Foxy Gent analyses the common causes of erectile dysfunction in men, and offers customized treatments for each issue - from the psychological reasons why you can't "get it up" to erectile dysfunction caused by poor health or disease. In this book, you'll learn:

- The three main reasons men experience erectile dysfunction
- Lifestyle changes that can dramatically improve your sexual health
- Supplements to treat erectile dysfunction, and boost your sexual performance
- Mental tips and tricks to sharpen your sexual edge

Offering practical solutions to a serious problem, Foxy Gent doesn't beat around the bush. From porn and masturbation to exercise and diet, he lays bare the lifestyle habits that could be devastating to your sexual health.

Intricately researched and detailed, clinical studies and medical fact support Foxy Gent's solutions to erectile dysfunction - ensuring that there's real science to back up his advice.

Easy to read, fun and insightful, with a conversational style and honest approach to an embarrassing problem, Foxy Gent provides information and answers in a format unlike any you've seen before. There's no medical jargon, but no airy-fairy pleasantries either. Just solid facts and practical advice. Find a solution to your problems. Click "Buy Now" Today

Customer Reviews

Great book filled with a ton of practical advice. I found the chapter on porn and erectile dysfunction to be really interesting. I hadn't heard about that connection before, but there's lots of science to back it up. Whether you're experiencing problems in the bedroom, or just looking to upgrade your performance, there's great advice in here that will help you avoid having to talk to your doctor about a prescription of little blue pills. Definitely, worth a read.

Very interesting read. You may have heard a few of these things before but there's a lot of very new and detailed information here and more sources and links even on the more common methods. My bf has put some of the nutrition information and, uh, other specific practices into use, and I really notice the difference. :) On top of that, the author is actually pretty funny. So yeah, go get this. You'll have a good time reading it and your SO will definitely thank you later. Disclaimer: By bf and I are not doctors either, but now he has a P.h.d. :)

Ok

Good reading before going to the doctor.
