Powered: Mech Wars Book 1

Synopsis

Humanity is tired of losing. Enter the mech. After the mysterious discovery of an alien mech inside a comet, Darkstream Security has finally completed its own design. They assign Chief Gabriel Roach with the task of whittling down hundreds of bright young recruits to form a team of elite mech pilots, which he will command. Their mission: protect human colonies from the almighty Quatro. A single Quatro can take down an entire squad of traditional soldiers. Bigger than a draft horse, more muscular than a grizzly, with jaws that splinter bone. And zero fear. They almost defeated humanity before, and now they're back - in numbers we didn't know they had. But Roach is the perfect one for the job. Almost too perfect. The Quatro took from him the only woman he ever loved, and now, he's determined to make one thing clear: It's them or him.

Customer Reviews

Took a little getting use to the bouncing between the stories but I finally got a hand on it.

Downloaded the free books and waiting for more!!

Could not stop reading this till I finished the book.great job Scott looking forward to the rest in this series

This book definitely keep me glued to it . The book was well written and it was full of action.

I enjoyed reading this book , tt had interesting story line can't wait to read the future sequels

His first books, on the IXA, I struggled with. In particular how he used the rank structure in the military. I didn't feel like he understood the military rank structure. This book appears better written and I think he has a better feel of how the military works

Confusing, too many threads, and it just did not seem realistic.

Great start to a new series. Can't wait till the later books come out.

Another great story! As a Soldier, and an avid science fiction fan I thoroughly enjoyed this storyline. Keep them coming!
