Customer Reviews

This book gives an insight on the concept of a tiny house; that it is cost effective than the traditional houses. Has lesser cost on the overall maintenance of the house and cheaper insurance premiums compared to conventional houses. The cover page is the glimpse of what a tiny house would look like after the construction of the house, and I'd say, it looks cute and cozy.

This is a short, but comprehensive book which will guide you through the process of owning a tiny house, whether you want to build it or buy it. If you wanna live a simpler, more minimalistic life and downsize to a tiny home, don't hesitate to download this book!

I'm still in the planning stages and intend to start building in the spring. This is a great reference book to have. Good information to have on the ready while drawing up different floor plan designs. Well worth it if you are thinking about going tiny.

i love tiny house from this one, how to design, and arrange nicely and saving budget and plexible too. So interesting house. Smart choice to saving money. Thank you author

Tiny Homes fascinates me! The Tiny homes plans are great, and In some way it feel like total freedom. Thanks for this book

This ebook is great! Got lots of tips on how to begin looking at building a tiny house with many other options including buying a kit to purchasing a already built one. Definitely worth the price

This is a perfect book to learn about making of tiny homes, I found that the book is well written and easy to understand. To follow this book I can make my luxury tiny home in economical cost. So that is the reason I like this book thanks.

I never thought about the tiny homes but this book shows me the new perspectives on the tiny books. It helps me to understand the concept and good things about the homes. I liked the concept.
