Fighting Fate (Overthrowing Fate Book 2)

Synopsis

Xu Min realized that he was gifted with an exceptional talent for cultivation as he was training to become a family guard. His path was set before him but due to the jealousy of man, misfortune befell him. Xu Min found that he could trust no one as he began walking down the path of vengeance in a world where only the strong survived.

Customer Reviews

Big fan of this author. Blue Phoenix series is great. This one doesn't disappoint either. This series has a different approach with how and why the MC handles situations, darker yet justified. Kinda wish there was a comic relieve moment or two, but a certain character is taken out of the equation in this book really hopes he makes a comeback. Just my opinion. Overall though for this genre I enjoyed every page. Plenty of action. Character development moves along at a great pace, though a bit overpowered its understandable. That said I want more please

If u thought the first book was good you will definitely like this one. It is a bit different because he is

moving around a lot. A few things I didn't like *minor spoiler ahead* was that there was another beast and Cao Cao was not part of too much of the story. He also made some unbelievable jumps in strength. I also wish that she went more in depth with the fighting scenes. Keep in mind I only listed the bad things. There are too many good things to list. Read this book. And hurry with the next one please!!! What a cliff hanger.

I saw several incomplete or missing words, I also saw a few words where they didn't belong, finally there was a missing sentence and a German word. If there were other flaws I missed them. Oh name slippage with other main in other series. Still enjoyed. Will buy 3

The book fulfilled my expectations: a nice entertaining story that fits the Wuxia mold, except perhaps that the MC is likable. It is a bit predictable though and riddled with typos. I am seeing growth in the author's writing style though, easier for me to read. Still, if you are interested in the genre, there are worse series to start with.

This series is developing very well and continues the powered up, often over the top approach that is so much a part of this genre. This series is very much up to the author's other series and I look forward to book three. :)

Great story however sometimes the name Hui Yue is used instead of the main character's name. This is forgivable as the author is working on two different story lines at the same time.

I really liked this book can't wait to see where the next book takes the story I will definitely read the next book

I loved this book!! I am not much of a reviewer, however I am really looking forward to the next books.
