Customer Reviews

7 year old couldn't wait to learn to write in cursive

Good for practicing...kid loved it...thanks

My little one is all over the book. Would have preferred more pages with traceable alphabets, but this works fine too

terrific would recommend

I think the book is great. I bought it for my soon to be 3rd grader son. Our public schools aren't reaching cursive anymore (very disappointed) so I bought this book to introduce him to it over the

summer. I'm giving it 3 stars for now because we just started but it sure helps teaching the importance of how to place your hand properly and provides lessons practicing how to create the loops and connect letters.
