Plastic Surgery Without The Surgery: The Miracle Of Makeup Techniques

Synopsis

Have you been contemplating Botox, eyelid surgery, or breast augmentation? A face-lift, nose job, or collagen injections? Save your money and avoid the risks! You can get the glowing good looks you dream about with the secrets revealed by Emmy Award-winning makeup artist Eve Pearl. By applying the same Hollywood-insider methods used to make celebrities look years younger and show-stopping gorgeous, she shows you how to enhance your lips, diminish wrinkles, and even appear to go from an A-cup bra to a generous B or even C! Like a magic wand, makeup-done as you've never seen it before-will accentuate the uniqueness of your looks while disguising the flaws. With Eve Pearl's simple but amazing techniques, you can completely transform your face, eyes, brows, nose, lips, and breasts. And this powerful, safe way to a more youthful and natural beauty takes just minutes to achieve. Discover: * The "face-lift" kit that tightens skin, brings out the eyes, and hides deep laugh lines around the nose and mouth * Fantastic remedies for dark circles under the eyes, puffiness, and crow's-feet * How to use moisturizers and foundations to create velvety, luminous skin tones-without the dangers of a chemical peel or bleaching * Dramatic shading to produce elegant cheekbones and make a double chin disappear * Techniques to make your breasts look larger (you won't believe your eyes!) * Products to create fuller, more sensuous lips with a "sweetheart" shape and a luscious shine ...and much more. From eye-lift to face-lift, you will be thrilled by the results-without the pain, risk, or expense of surgery!

Customer Reviews

Eve Pearl lives in New York City.

Eve is not only a make-up artist, she is a magician who reveals the tricks of the trade Kelly Ripa
--This text refers to an out of print or unavailable edition of this title.

Eve Pearl does AMAZING things with people's flaws. Even though she uses pretty much the same for everybody, she does an amazing job with flaws. I mean, that's what the whole book is all about. Unlike other makeup books, Eve Pearl works with real people, not professional models or hollywood friends: it's real people like you and me who don't have flawless skin or perfect eyes or noses. I am a subscriber of Eve Pearl's youtube channel and you can see her in action, everything on this book comes to life as she does it... so go ahead and buy it, you will learn a thing or two in how to look closer to perfection.

Anyone considering plastic surgery should read this book first. Not. In all honesty, makeup looks as good as the structure in which it's placed. This book gives excellent advice on how to use makeup to hide facial flaws and maximize your appearance. The models are true-to-life, not paid for from an agency. How-to instructions are clear and understandable, and the before and after photos delight and inspire. I really liked this book. Yet, for every technique presented, I could not make the dark hollows under my sleepy eyes disappear.

I did enjoy the book but not the condition it arrived in. The cover had what appeared to be coffee and food stains on it. I wiped it clean with an alcohol wipe and it was fine. I was a bit surprised that it was sent to me in that condition.

I wasn't really expecting to have such an important and sensitive information from the author, by reading it you can say she really cares for you to look great without spending a lot :) best make up and beauty tips book I have read until now. Realmente no esperaba tener informacion tan importante y sensible del autor, leyendo este libro puedes darte cuenta que a la autora realmente le importa que nos veamos geniales sin gastar una fortuna :) El mejor libro que he leído hasta ahora de maquillaje y consejos de belleza.

This book starts with the premise that everyone has unique qualities that are beautiful. Rather than expend large sums of money, suffer the pain and risks and possible dissatisfaction of permanent surgical options, the author suggests using makeup. Sharing techniques she honed as a

professional make-up artist, the author takes regular people, wrinkles and all, and transforms them. Each step is photographed and described in the text and the make-overs are impressive. The models include the author, her family and friends and she addresses everything from covering tattoos and age spots to enhancing the eyes, straightening the nose and enhancing the bust line. Scattered throughout the book are the author's "pearls of wisdom", essentially cheap and easy beauty tips. There is a section on make-up tools and how to buy makeup. I enjoyed this book for its upbeat tone and simple and clear instructions. It is basic but the results can't be beat. I applaud the author for advocating a healthy approach to beauty. People should learn to feel good about themselves and accept that age and beauty are not incompatible. The models in the book represent a good cross section of the population including minorities, young girls, and seniors. All are refreshingly individual--no botoxed Barbie dolls here. This book is more than a manual, it is a mood lifter too!!

Hi folks, I just bought and read Pearl's Plastic Surgery Without the Surgery and Robert Jones' Looking Younger and wanted to share with potential buyers how I felt about the two. I definitely found Jones' book to be easier to read and understand. His descriptions and techniques were more approachable and easy to follow. Pearl's book was a distant second in my mind. I have watched her videos on YouTube and found that all the same models and makeovers are in the book (so you may as well watch the web videos). With the advice in Jones' book I have been able to improve my appearance without heavy make-up which is what Eve Pearl seems to inevitably direct women toward. Beware, the images in Jones' book are clearly touched up which feels a bit like he and his publishers are cheating. Here's a tip you may find useful: I am a fan of Eve Pearl's salmon concealer for under eye circles. Apply it sparingly on very moist skin (or blend it on your fingertips with moisturizer before you apply it); you'll be pleased with the results!

This book is great for beginners and I guess also for experienced people. They've exaggerated with the title, but even so I think you can get incredible results in your makeup after having this book. It is true that you won't achieve with normal amount of make up the results that you see in the photos and trying to get the flawless faces that shows the book would look too unreal in person, but probably it would work for a photo session. I like the fact that anyone can follow all the advices in the book without spending too much money, also the chapter of the tools (brushes, etc) was great, I learned a lot. I must say that this book gives you the general techniques and tools needed to get the effect you want, the rest is practice. The book has a good presentation and nice paper, but I

expected a bigger size, fortunately the content was worthy. I don't regret that I bought this book, it's a good beginning.

Very good and informative book on makeup as well as tips for younger and older skin. I am 43 and I have found many useful ideas for minimizing flaws as well as enhancing my best features.
