# Essentials Of Meteorology: An Invitation To The Atmosphere

## Synopsis

This updated and enhanced seventh edition of ESSENTIALS OF METEOROLOGY is written by the most widely read and authoritative author in introductory meteorology--Donald Ahrens. Ahrens's ability to explain relatively complicated ideas in a student-friendly, manageable fashion allows even non-science students to visualize the principles of meteorology. The text's clear and inviting narrative is supplemented by numerous pedagogical features that encourage observing, calculating, and synthesizing information. New critical thinking questions linked to key figures and concept animation boxes point to online animations and appendices allowing students to immediately apply the text material to the world around them--and understand the underlying meteorological principles.

## Book Information

Paperback: 544 pages

Publisher: Brooks Cole; 7 edition (January 1, 2014)

Language: English

ISBN-10: 128546236X

## Customer Reviews

Don Ahrens is Professor Emeritus at Modesto Junior College in Modesto, California. The bestselling author of two Cengage Learning texts, Professor Ahrens received the Textbook and Academic Authors Association's McGuffey Longevity Award for the 9th Edition of his market-leading METEOROLOGY TODAY. He has influenced countless professionals in the field of atmospheric science as well as hundreds of thousands of students who use his books to better understand weather and climate. In 2007, the National Weather Association awarded Professor Ahrens a lifetime achievement award for these accomplishments.

Best rental deal out there!!!

The Book was delivered ripped and falling apart missing pages. But had to keep the book since the class was starting in a few days. all and all the book was still helpful and met the requirements for my class.

Students who are interested in meteorology can learn about the basis of weather and climate for this textbook. It is very useful and helpful for learning.

It was a very descriptive textbook

Item was as arrived and arrived quickly.

Good book. Written clearly and easily understood.

Great!

very nice tb good explanations.
