Is "legislator" pronounced with an "er" sound at the end or an "or"? Is the Jewish festival of lights spelled "Chanukah," "Hanuka," or "Hanukkah"? With Webster's New World College Dictionary,

which promises to describe rather than prescribe, you can take your pick. The dictionary includes more than 150,000 entries, including brief biographical and geographical notes and useful drawings and diagrams (depictions of four kinds of buoys, for example). The guide to pronunciation and symbols is given on every other page, handy for those who don't like to refer to the inside cover each time they forget how to pronounce the sound of the schwa (of course, the guides on the inside and front covers are more extensive). Starred words refer to Americanisms, which number more than 11,000, such as "hornswoggle" and "Hopi" and "kitchenette." The definitions themselves are clear and simple and seldom have you scurrying to another page for a definition of the definition. Easy to use and understand, Webster's New World College Dictionary is a fine addition to any high school or college student's desk set. --Rebecca A. "This is, it goes without saying, a majestic publication." --Philip Howard (Wall Street Journal, August 23, 2005) --This text refers to an out of print or unavailable edition of this title.

Note the '(Book with CD-ROM)' that is the reason for five stars. This is an excellent dictionary in its own right. But, getting up to get it off the shelf has caused me to not use it several times. And, it is a heavy tome: weight and contents. So, presto, now it is on my toolbar - one click away. And now I enjoy being able to access its content. A great marketing feature - a great incentive to purchase this item.

The book was in perfect condition, I watercolor on the pages for a unique look.

Best Dictionary on Earth.

Was very pleased. My daughter laughed that I ordered it because people just Google to get answers for everything. I'm old school and like having the book in my hands to look something up. The copyright on my last dictionary was 1974! This was much needed. Have already used it a few times.

A review said that this edition had a thumb index, but it does not. Otherwise it is a good dictionary.

This is far better at getting useful definitions than my Merriam edition was. Fewer tautological

definitions stating "of or related to [Insert the same term]". I still find a handy physical dictionary to be faster more fun to use when I am reading books and my computer is not on.

Excellent

Great dictionary! Excellent vendor service, would highly recommend!
