The Piano

Synopsis

(Music Sales America). Six original compositions for solo piano, by Michael Nyman, from the award winning film by Jane Campion. English composer Michael Nyman has developed into one of the most popular, if not important, composers of film music, and his film score for the 1992 film *The Piano* is without doubt the most famous and familiar of his compositions. The tone of Campion's film is perfectly emphasised by Nyman's style and though much here is beautiful and rich, it is a haunting and foreboding sound picture that reflects the greys of sea, sky and spirit.

Customer Reviews

A beautiful score to let you play some beautiful music. My wife is a classical pianist who loves Michael Nyman's work. After seeing the movie "The Piano" (which I found sad, by the way), my wife wanted the score. This book contains Nyman's six original compositions for the film. My wife says that they are intermediate level in terms of difficulty. If you play piano, you should listen to the music from the movie, and if you like the music, you should buy the scores! The price is super-low (\$9.88 is what we paid) and you simply can't go wrong.

One of my favorite piano books ever. I lost my original copy in a move and had to repurchase it. Great for intermediate players, with some fairly easy and some more challenging songs.

Had to play. Difficult music. Need to hear CD to match to the sheet music. This will take some time to figure out.

This production of the Piano is very hard to play. I am disappointed as I am not an experienced piano player.

While playing, I can remember the film "The Piano", unforgettable!

Very nice and relatively easy pieces to learn for a late beginner, music theory required and supervision from a teacher (in my case!). I love the pieces from the movie, and the print is great for reading, and I highly recommend if you want to learn to play some of the popular pieces from the movie.

I wanted the sheet music for The Heart Asks Pleasure First for the longest time and I am more than pleased with purchasing the whole book. It is exactly the intermediate level I was looking for and despite being a seasoned pianist, I enjoy how fun, intricate and challenging Nyman's songs are. No regrets with this purchase at all!

What I like about this book is that it seems to be exactly the pieces played in the movie--not simplified versions. I would recommend this to an experienced player. I took lessons for over ten years and have been playing casually since, and some of the pieces are a challenge. They're beautiful, haunting pieces.
