Customer Reviews

I was extremely disappointed in this entire series of books. I bought them as a Christmas present for my daughter and was shocked at the lack of meaningful sensory experiences. Some pages don't even have any anything to touch or the raise is so insignificant that it can barely be felt. I do not recommend this book if you're looking for a lot to "touch" or "feel."

Sending this to my 7 month old grand son. He will love it. Has fabric & ridges to feel & stimulate the sense of touch.

Not enough textured parts. It's just a board book. The textures need to be bigger.

A perfect first book for my granddaughter. My daughter said she was looking for some books for her with textures. This one and the others I bought from are just what she was looking for.

Very cute book for my 9 month old (at the time)Granddaughter, she loves looking at the pictures and feeling the pictures on the pages. I enjoy reading it to her and holding it up so she can touch the pictures. This is a touch and feel book she will like when she is a few months older.

I don't get it. We have a lot of these touch and feel products but this is just weird. The "touching" parts are not very sensory (like shiny paper, for example) and the animals are strange and sometimes made up.

The "touch" and feel is so pathetic, was hoping for a little more fabric or glitter to capture my daughters attention, she hasn't noticed any differences between pages

I bought several other Baby Touch and Feel books at the same time as this one. She loves the animal books, but just hasn't gotten into this one yet. Bright pictures and interesting things to feel, though.
