Customer Reviews

A mother's story of her beautiful courageous daughter's 3 year bout with idiopathic illness and the baffled doctors who initially try hard to help and give up in frustration. The mother remarks that they didn't look beyond the box. I think it was more a case of not seeing inside of it, what was under their noses. The entire family looks out for Emily, little brother to grandparents, but it is her mom who especially fights to save the 15 year old and the book has a happy ending, both celebration and guidance.

I hope Beth reads her reviews. I don't care about sentence structure or correct format. This book spoke to me! I too have a child with health problems. We're still trying to "fix" him. They are also stomach related, though not as severe as Emily's. If one more medical professional tells me it's in

his head I'm going lose my mind. His teacher asked me what is wrong with him- I said, I think he's in pain! Anyway, thank you Beth for sharing your family's story. We are going on two years of health problems and different doctors and reading your book has been enlightening. I'm so glad Emily's better! 5 stars for putting yourself out there in hopes of helping others.

I chose five stars because anyone with a sick child could learn from it. Doctors and hospital can not possibly know everything, we need to be advocates for our children. Emily had food allergies that were making her very sick. Her mom knew Emily was sick and kept at it until the right doctor found the problem and thanks to him she knows how to take care of herself. A must read for people who may have food allergies.

God bless this family. Truly inspiring. I am sure this book has helped other families as well. Thank you for sharing

A scary, but enlightening story of the consequences of food allergies and the difficult ordeal in discovering, diagnosing, and treating them. Doctors are only human and if they are getting no where in your treatment, they just give up and send you home to suffer and sometimes die. Thank God for persistence on the part of the parents.

Never underestimate the power of a mother's love!! God bless you Beth for your perseverance in your mission to save Emily!!

This story shows how the family wouldn't give up trying to help their daughter, even going to several hospitals and doctors until they found what was wrong with her and how to help her.

Wonderful account of a Mom's journey to find help for her daughter.
