Customer Reviews

I own over 20 LP books. The maldives edition is less informative than its usual prints. Once you book your resort, don't really need to read the book unless you are doing some atoll-hopping.

Not the thickest Lonely Planet guide out there, but plenty of information on Male itself and interesting information on the principal reefs and history. I would recommend as a light weight guide to add to your collection.

Good information.No photos.Some pages badly printed. Blurry. Unreadable.

This book covers all the details that you really need to know and would have never thought that you should need to know!

great resource for folks going to Maldives especially since Yelp and Google maps aren't quite mature yet.

very helpful for my visit to Maldives.

Guides well thanks a lot
