Customer Reviews

I studied French through high school, but haven't spoken it in over a decade. This was a great reintroduction to the language and those basic phrases that will see me through virtually any encounter during my forthcoming trip to Paris. I'm looking forward to putting the phrases I've learned into practice! I actually used this without the accompanying booklet and just listened to it in my car. If you're completely new to French, I imagine you'll find the complimentary booklet helpful. Highly recommended.

Without previous knowledge of French, this is hard to follow. Only 2 repetitions and on to the next phrase. There wasn't any help on pronunciation. It would help if the phrases were broken up on the initial practice. Not great in the car as helps to see the words in the guide.

As the title indicates, its French for your trip. Good for basic communications about tickets, directions and bathrooms. Proper phrases, but not "conversational" or dialectic. If you plan on going

anywhere other than the airport or train station, you may want to consider another option.

This is concise, great for basic needs and even has a booklet. Unlike Pimsleur, one can see what the words look like and can learn how to mix and match more than the bare minimum that Pimsleur offers through endless repetition. A great start to learning a language completely.

This cd gives way too much to absorb. We were looking for simple phrases to help us get by. It is too difficult to use to practice the phrases and correct pronunciation of words or phrases we may actually need.

It is good for my current purpose. Not to start learning of the French Language formally. Sincerely Raul Guerrero Torres

good

The cd is in perfect conditions and the use I needed for it is ok, the only disadvantage that I found was a missing leaflet with the translations written, but it's not important.
