Very difficult to find in my country (mexico) and has it!!The music is sooo beautiful, great for piano and violin, but also for piano solo, you just have to mix the different pentagrams, I hope can bring the other albums.I really recommend this album, all songs are great.

I am glad to have this music - I just wish the melodies had been incorporated into the piano part.

I love this music. it is easy to play and you can be very expressive with it. It makes great meditation music for your own enjoyment or if you play in a church. Wish they would publish more in the US.

Have the "Best of" piano book and happy to have this book too. Not too difficult.

I had hoped to play this music on piano but the melody is not in the piano music. Still enjoyable but more difficult to play.

False advertising. These are NOT transcriptions for solo piano. The melody line is often carried by the violin played over the piano accompaniment, which does not often follow the melody. The songs are beautiful and an accomplished musician could use the book to score his/her own arrangements of them, but do not buy the book if you just want to play them directly on the piano.
