Warning - this company reuses photos so do not buy this book and their baby animal book as a number of images are identical. Between the two books, I like the animal sounds book much better. Only two things I would change in the book - 1. replace the goat image with one not so awkwardly staged. 2. replace the grasshopper with a bee because most people can buzz and few can come close to making a grasshopper noise.

My daughter's pediatrician gave her one of these books at her 9 month check up. I loved it and so did my daughter, so I found them on and ordered all of them! They're simple, educational and not too busy. She's really catching on to so much since we received these books. Love them!

This is the cutest little board book featuring such beautiful pictures of animals. Simple and sweet. Perfect for toddlers learning new words, and the sounds the animals make.

NICE!

The 1 year old LOVES it. She requests it often. It has some more unusual animals beyond the typical cow, horse, cat and dog.

My toddler likes it but I thought it was in both spanish/english. So we just have to translate for her.

We started with this book from the library & soon realized she needed her own copy. She LOVES the pictures & hearing the sounds the animals make - especially the orangutan!

Very Nice Condition....Thank You
