I was disappointed in the book, because I thought the title was misleading. I expected more of an in depth analysis between Malaysian culture and the west. This is written as a travel guide. It is very informative if someone should go and live in Malaysia, but it should have been presented in that way.

Considering that Malaysia is a country defined by its rich, tri-ethnic culture, I was surprised at how superficially the author handled the content and possible topics. I was also disappointed with how little info was available about working with Malaysians.

This book informative and helpful before and after trips to Malaysia. I enjoyed the way it was written. It helped me better understand and appreciate the country, people and culture.
