great book for working on the road while RVing.. a lot of info, some relevant some not, but a lot none the less. This will not find you a job but with the info in the book if you do not find a job you are not even trying any of the idea's Jamie has put forth. Will you find a 12 dollar and hour job.. most likely not, but finding a job or position at somewhere you get no cost site with elec is worth money. Getting a site with no cost and elec etc plus minimum wage is priceless.. I am looking forward to giving this a try when we go full time in 4-5 yrs. Wish us luck.. :)

Great manual for those thinking about going fulltime or those RVers that are already fulltime but thinking about work on the road. This book also has a lot of information about what it takes to fulltime on the road. Great little book!

Very informative. A must read for any traveling RVer!

How to finance the freedom of the RV lifestyle without a million in the bank. If you have any skills, people, mechanical, electrical, anything, you can finance travel throughout North America.

This book was filled full of ideas for workcamping but leaned heavily on the couples side---I was a lone woman camper.

Very informative and detailed. Buy it if you need info on working and rving.

Excellent book a must have if you are thinking of RVing for a living or just part of the year. A definite buy! I also recommend Complete Guide to Full Time RVing: Life on the open road. The two books help and provide information the other doesn't provide.

I feel this book will be for me indispensable. It is great & gives info the other books I got provide & do not provide, & more.
