Customer Reviews

Founded in 1947, Hal Leonard LLC has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

This book makes little to no chronological sense. I need it as my class textbook. I do not recommend for a beginner. I am merely doing a refresher to keep my very basic skills going and this book is no help.

Very good condition.

Not easy to understand

Maybe I'm just stupid, but I am a very well accomplished musician. I needed to learn some things in this text to take a piano clep test in college. I typically found myself going to YouTube to learn the techniques in the book... The songs included are kind of weird at times. Not a big fan.

I mean... it's a text book. It does its job. It works well for beginning pianists. Woo.

I don't think It was right for the seller to send a used copy of this book when, after all, I purchased one that was listed as new.I returned the book and requested a new one, period. I will not accept anything less. I they do not have a new one, then refund my money please. Thank you.

This is a beginner book for an older student. It is progressive and easy to follow. The works in it are interesting while being simple enough for a beginner. This book gave me a good start in learning to play piano though I did do it with the help of a teacher. I think it would be possible for a motivated student to do it without a teacher.
